

Spring Window Display

Supplies needed:

- *colorful cardstock or fadeless construction paper
- *scissors
- *glue, double sided tape
- *clear string, thread
- *recycled brown paper bags

How to:

1. Cut out the various spring shapes on the paper and recycled bags, including but not limited to:
 - *bunnies
 - *chicks
 - *flowers
 - *butterflies
 - *flowers
 - *bees, ladybugs and more!
- I used a mix of drawing and cutting, searching ideas online, and my cricut machine to cut out shapes.
2. Decide where your display will go, lay out ahead of time on the ground or the table to get spacing to your liking.
3. Tape string/thread to the back of the items you'd like to hang and then tape all of your items on and around the window. *Don't have a good display window?* Create the scene on your fireplace mantle or front door to welcome guests!
